BOWCO Industries manufactures a complete line of precision engineered parts for the precast concrete industry. All BOWCO products are the result of combining extensive experience, quality raw materials and state of the art manufacturing equipment. Our products are simple, efficient solutions. BOWCO products range from duct terminators and related patented terminator accessories, threaded inserts and insert locators, plastic coated and galvanized pulling irons, manhole steps, lift pins and septic tank products. You'll find quality craftsmanship and unsurpassed reliability in every BOWCO product.

BOWCO Industries also offers a complete line of custom molding services from product and mold design, sourcing of new molds, part molding and assembly, secondary services, as well as warehousing and distribution of your parts.

BOWCO Industries is committed to providing outstanding service. From redesigning one of our products, to making special shipping arrangements, our customer's needs are our top priority. Customer service at BOWCO is an attitude, founded on the idea that securing long term business is more important than profiting today.
