Canby Disposal Company (CDC) was purchased in 1974 by brothers Fred and Jerald Kahut. CDC serves customers in Canby, Barlow, Macksburg and New Era areas.. In 1979, the brothers founded K.B. Recycling, Inc. (KB). KB is known regionally as a leader in recycling transportation, processing, and marketing and is a two-time recipient of the Association of Oregon Recyclers “Recycler of the Year” award.

CDC is a full service solid waste, recycling, and yard debris collection company and employs 12 people including professional drivers, route managers, customer service representatives and administrative personnel.

In 1998 CDC constructed its new 40,000 square foot transfer station and maintenance facility on 10 acres in the Logging Road Industrial Park. The facility houses CDC and West Linn Refuse and Recycling’s customer service and administration department in a separate 4,000 square foot office.

KB is a purchaser of recyclable materials, both commingled and source separated, from local regional and national solid waste companies. They supply material to various regional paper, glass and steel mills and several over seas markets. KB employs 75 people between the Canby facility and KB’S new 63,000 square foot Clackamas, recycling facility.
