S.R. Smith is the world leader in swimming pool deck accessories. Since 1932, when founder Sam Smith began manufacturing diving boards from locally grown fir trees, the vision and commitment of S.R. Smith has been quality, innovation, leadership and service.

Headquartered in beautiful Canby, the company has grown and expanded their product line to include both the residential and commercial pool environments. Their products include diving boards, pool slides, rails, lifeguard chairs, and swimming pool water toys like basketball and volleyball. Adding to the company's accomplishments are their two newest products, which are taking the industry by storm...the Poolbar™ and the Little Dipper™. Both products were launched in 2003! The Poolbar's innovative design includes two submerged seats, an attached table, and an easily adjustable umbrella. The table includes built-in cup holders, and is perfect for lunch with the kids or a quiet evening of relaxation.

The second product to launch in 2003 is the Little Dipper™, which is the newest, most contemporary swimming pool slide on the market. At only 4'-5" tall it is perfect for small children and is easy to install. It easily mounts to the deck, and because it does not require plumbing for water, it is the perfect slide for existing pool owners

It has been through dedication, loyalty and love for the company that S.R. Smith employees continue to design, manufacture and promote products that are cutting edge in the industry. They appreciate the dedication of their employees and the support of the local community as the company continues to manufacture products that "bring on the fun!!!"
