## Visit Canby

Wait Park - Downtown

**T**he city of Canby is proud to unveil the new "Visit Canby" website that highlights the many unique visitor attractions and events in our area. It is designed to be very visual and intuitive so that people can find what they need easily. We hope that along the way, they will also discover jewels they never realized Canby had. Taken all together, it is very impressive to see the wide variety of tourism assets our community offers. Take a look at <http://visitcanby.com/>.

The website implements one of the key recommendations in the Canby Community Vision. Its mission is "To inspire Canby area visitors to explore the many unique experiences, events, and attractions our community offers." The content of the site was gathered by the city economic development department in coordination with tourism attraction and event leaders in the community. Canby's own Full Bloom Digital was the website developer. The site will be updated regularly with current event highlights and any new attractions.
